

NISHAN ROSARY S

Bangalore, India

+91-97399-02765 nishanrosary908@gmail.com linkedin.com/in/nishan-rosary github.com/NishanRosary

Professional Summary

BCA graduate with hands-on experience in software development, backend development, technical troubleshooting, and operational support. Skilled in Java, Python, C, C++, C#, JavaScript, React, and database technologies, with a strong understanding of Object-Oriented Programming (OOP), Data Structures, Algorithms, REST APIs, and Software Engineering principles. Experienced in building AI-powered applications, web-based solutions, and database-driven systems through academic and personal projects. A quick learner with strong problem-solving, communication, and teamwork skills, interested in Software Development, Full-Stack Engineering, Application Support, Artificial Intelligence, and Cloud Technologies.

Education

St Joseph's University

Bachelor of Computer Applications (BCA)

Jul 2023 – Apr 2026

Bangalore, India

St Joseph's Pre University College

CEBA (Computer Science, Economics, Business Studies, Accountancy)

Mar 2021 – Apr 2023

Bangalore, India

Technical Skills

Software Engineering: Object Oriented Programming (OOP), Data Structures and Algorithms, Software Development Lifecycle, Agile Collaboration, Testing and Debugging

Frontend: HTML, CSS, JavaScript, React, XML, Figma

Backend: Java, Python, Node.js, Express.js, Flask, JWT Authentication, SMTP Automation, Rest APIs, FastAPI

Databases: SQL, MySQL, MongoDB

AI and Machine Learning: NLP, LLM, RAG, NumPy, Pandas, Scikit-learn, Random Forest Algorithm

Tools: Git, GitHub, Postman, VS Code, Power BI, Vercel, Render

Professional Skills

Team Collaboration — Problem Solving — Communication — Design Understanding — Attention to Detail — Adaptability — Time Management — Continuous Learning — Testing and Debugging — Prompt Writing

Experience

Operations Executive (Part-time) | Beegle Technology Private Limited

Jul 2024 – Mar 2026

- Provided customer support through phone, email, and live chat, ensuring timely issue resolution.
- Worked with technical teams to troubleshoot application issues and improve user experience.
- Performed feature testing, defect reporting, and Incident Management activities.
- Maintained process documentation and knowledge-base articles to improve operational efficiency.

Projects

QURA AI - Knowledge Assistance | RAG, LLM, Python, Vector Database, Langchain

- Developed an AI-powered knowledge assistant using Python, RAG, and LLMs for document-based question answering.
- Built a Retrieval-Augmented Generation (RAG) pipeline using embeddings, document chunking, and semantic search.
- Integrated vector databases and intelligent retrieval techniques to improve response accuracy and information retrieval.
- Developed document processing workflows for PDF, DOCX, and text files, enabling efficient information retrieval and question answering.

Smart'Q Management System | React, Javascript, Machine Learning, Python, SMTP, Vercel

- Developed a smart queue management system using React and Python for real-time tracking and crowd prediction.
- Built scalable frontend components and integrated machine learning models to predict waiting times and peak hours.
- Implemented SMTP-based email automation for booking confirmations and queue notifications.

Certifications

Best Performer (Beegle) — Python Coder — AI Driven Data Science — Prompt Engineering — Product Management — AI ML Training Course — Machine Learning Fundamental — Cyber Security Foundation — IPR Event Certificate
